

# GEORGIA PROFESSIONAL ENGINEERS AND LAND SURVEYORS BOARD

\* All PLS candidates must obtain a minimum of 24 months of "Apprenticeship" experience in responsible charge (under the direct supervision of a PLS) after they have satisfied a minimum of 9 semester hours of the required 18 semester hours of land surveying coursework. Surveying education requirements (including degrees) shall be met through a transcript demonstrating a curriculum from a college or university acceptable to the board. Prerequisite hours do not apply toward the required 18 semester hours of land surveying coursework. All acceptable work experience obtained prior to completion of at least 9 credit hours of land surveying coursework shall be given credit at up to 50%. Experience must be progressive in nature and include adequate time in both field work and office work. Per Board policy 15-03B, a maximum of 12 months of experience will be credited for construction layout activities. The final application package submitted to the Board must include two boundary and two topographic surveys that meet State of GA minimum technical standards and a completed apprenticeship affidavit (form to be provided by the Board) from the supervising land surveyor(s) of the applicant.

**Please Note: Applicants are responsible for confirming that their education source(s) will be approved by the Board. The Board will publish a list of several (but not all) acceptable sources for land surveying education coursework on the Board website.**
